TEAM OVERVIEW

The Dublin & Wicklow Mountain Rescue Team is a voluntary 999/112 Rescue service responding to those who find themselves lost and/or injured in the mountains. Over the last few years we have seen an increase in the number of callouts we are responding to and therefore an increase in our running costs.

This marks the 6th year of Walk the Line, an event that has become iconic and which has previously raised the funding for the team to purchase a new Land Rover Defender emergency response vehicle and to kit it out with the necessary equipment to support a rescue operation. This year the funds raised with the support of the Walk the Line participants will help with our continuous base development in Roundwood.

On behalf of the Dublin & Wicklow Mountain Rescue Team thank you for signing up to Walk the Line and helping save lives.
